

HALO Electronics is pleased to present this standard series of reinforced insulation 10BASE-T Isolation Modules to meet the requirements 802.3 for UTP applications requiring a high level of isolation, including telecommunications. UL60950, IEC60950 and EN60950 recognized.

Package NC

Schematic A

Schematic B

Electrical Specifications @ 25°C
Isolation Voltage: 4,500 Vrms
Insulation Resistance: 10,000 MΩ
PRI Leakage Inductance: 0.4μH Max.

ROHS-5 compliant parts
are also available

Patented Construction

US Pat Nbrs: 5,656,985
6,297,721 B1
6,297,720 B1
6,320,489 B1
6,344,785 B1
6,662,431 B1

Part Number	Turns Ratio $\pm 3\%$ (1-3:12-10) / (4-6:9-7)	Pri OCL (μH)	Cw/w (pF max)	PRI DCR (μH max)	Circuit Schematic
