

## Protect It! 8-Outlet Surge Protector, 25 ft. Cord with Right-Angle Plug, 1440 Joules, Diagnostic LEDs, Light Gray Housing

MODEL NUMBER: TLP825

Safeguard your computer, printer, scanner, router, modem and other small home electronics against dangerous surges, spikes and line noise.

### Description

Perfect for your home or office workstation, the TLP825 Protect It!® 8-Outlet Surge Protector features a surge protection rating of 1440 joules to defend your sensitive electronic components against even the strongest surges and spikes.

Because residential power outlets have three wires—hot line (H), neutral (N) and ground (G)—the TLP825 protects all three, covering the two protection modes: full normal mode (H-N) and common mode (N-G/H-G). It also filters out electromagnetic interference (EMI) and radio frequency interference (RFI) that can disrupt your electronics and inflict hardware damage or data loss.

Your devices plug into eight NEMA 5-15R outlets, three of which are widely spaced to accept bulky transformers without blocking adjacent outlets. Sliding safety covers block accidental contact with unused outlets. An integrated 15A circuit breaker protects all outlets and shuts down connected equipment in case of overload. The lighted on/off switch provides one-touch control over connected equipment. Diagnostic LEDs confirm your wall outlet is properly grounded and your connected equipment is protected.

The extra-long 25-foot (7.6-meter) AC power cord gives you flexibility to reach distant outlets, while its right-angle NEMA 5-15P plug allows furniture and equipment to be moved flush against the wall to save space in your workstation. Keyhole slots incorporated into the bottom panel provide convenient wall or desk mounting options for the light gray plastic housing.

### Features

**1440-Joule Surge Protection for Home or Office Electronics** Protects your computer, printer, scanner, router, modem and other small home electronics against even the strongest surges and spikes  
Recommended for any desktop, network or home electronics application requiring AC line protection  
Full normal mode (H-N) and common mode (N-G/H-G) line surge suppression  
Filters out disruptive EMI/RFI line noise that can cause equipment damage or data loss  
Exceeds IEEE 587 Category A and B surge suppression specifications

**8 Outlets Accept Wide Range of Electronic Devices** 8 NEMA 5-15R AC outlets accept most computers and peripherals  
3 widely spaced outlets accommodate bulky transformers without blocking other outlets  
Sliding safety covers block accidental contact with unused outlets

**Premium Safety Features** Lighted on/off switch provides one-touch control over connected equipment  
Automatic shutoff permanently cuts power to outlets if protection circuit is incapacitated, preventing equipment damage and indicating replacement is required  
Diagnostic LEDs confirm grounding and protection status at a glance  
Conforms to current UL 1449 3rd Edition safety standards  
ABS fire

### Highlights

- 8 NEMA 5-15R outlets, including 3 for bulky transformers
- 1440-joule surge protection rating
- Filters out threatening EMI/RFI line noise
- 15A resettable circuit breaker prevents dangerous overloads
- 25 ft. AC power cord with right-angle NEMA 5-15P plug

### Package Includes

- TLP825 Protect It! 8-Outlet Surge Protector, Light Gray Housing
- Owner's manual
