### Part Number : TMCE002 - MCE Wireless Kit GSM

MCE Wireless KIT GSM features a PIC18F14K50 MCU with USB support and GSM radio for text messaging and cellular communications. It includes four push-buttons, two LEDs, a temperature sensor and two 6A relays for remote control of systems. Comes with firmware installed that communicates using simple AT commands and a terminal program on your PC, or can be re-programmed for custom applications.

Documentation, drivers and firmware source code is available by download. Requires a valid SIM card and 9V DC supply.
