Would I like to know how to print float values???

slcd.print(float_data,2);//show float data,Decimal digits(1-3).. ____ It does not work!

Bought this display couple days ago. Hooked it up like mentionned above. Everything went well for a while and suddenly someletters became gibberish. Since then, all I get is gibberish. (

It seems it was a simple short on my breadboard. This display rocks! :D
