

ZMW Series

Mini Size Snap-acting Switches

Specifications

Contact Rating	100mA 30VDC @ 300,000 cycles min. 50mA 16VDC @ 500,000 cycles min. 1mA 5VDC @ 500,000 cycles min.
Mechanical Life	500,000 cycles min.
Insulation Resistance	100 M ohm min.
Dielectric Strength	Min. 600VAC (50-60Hz)/minute between Live Parts
Operating Temperature	-40°C to 85°C
Operating Force	150 gf max.

Description

ZMW series mini size snap-acting switches are often found used in automotive. Featuring a compact size (which is ideal when space is limited) and a reliable snap-acting mechanism, the ZMW series give applications with adequate long stroke requirement, ensuring they stand up to repeated use.

Features & Benefits

- Long & adequate stroke setting for high reliability & insulation
- Silent actuation for reduced audible click
- Compact size – ideal when space is limited
- Twin contacts design – sliding contacts prevent pollution of foreign materials
- IP67 for standalone switch except the metal terminal part; Full IP67 protection when potted with wire version
- RoHS compatible & compliant

Applications

- Industrial
- Home appliances
- Automotive: door latch, seat position detection, EV charging

Materials

Case	Nylon
Cover	PBT
Actuator Button	POM
Movable Contact	Silver alloy or gold plated
Stationary Contacts	
Terminals	Brass, silver plated.

Notes: Specifications and materials listed above are for switches with standard options. For information on specific and custom switches, consult Customer Service Center. Sealing cap could possibly be damaged in case of contacts with oils or greases. Please try to avoid direct contact. If more support is needed, consult Customer Service Center.

Ordering Number

Our easy build-a-switch concept allows you to mix and match options to create the switch you need. To order, select desired option from each category and place it in the appropriate box.
