

# BNX016-01

Note: If you have not downloaded this document from our official website, please note that the information provided may not be the most current.

Please download the latest datasheet of BNX016-01 from the official website of Murata Manufacturing

http://www.murata.com/en-sq/products/productdetail?partno=BNX016-01

### **Applications**

|              | DI 1 1 1 1 11                              |  |
|--------------|--------------------------------------------|--|
| Unsuitable   | Please be sure to read and comply with     |  |
| Applications | these "Precautions for use."               |  |
|              | Consumer equipment,Medical                 |  |
|              | equipment [GHTF A/B/C] except for          |  |
|              | implant & surgery & auto injector,         |  |
|              | Industrial equipment except for            |  |
|              | transportation & facility & energy         |  |
|              | equipment                                  |  |
| Specific     | Please refer to Our Website and            |  |
| Applications | specifications, etc. for information about |  |
|              | the performance, functions, quality,       |  |
|              | management, and safety required for        |  |
|              | the above applications, and use            |  |
|              | Products after confirming the              |  |
|              | performance and reliability of the actual  |  |
|              | Product.                                   |  |
| Recommended  | Canaumar aquinment                         |  |
| Applications | Consumer equipment                         |  |

### Appearance & Shape

### Packaging Information

| Packaging | Specifications | Standard<br>Packing<br>Quantity |
|-----------|----------------|---------------------------------|
| -         | Вох            | 150                             |

### **Features**

Large current, wide band compatible, low profile type ultra-high performance EMI filter ideal for noise suppression in DC power lines.

#### **Features**

- High insertion loss characteristic over a wide frequency band range.
   1MHz to 1GHz: 40dB min (BNX012)
   100kHz to 1GHz: 40dB min (BNX016)
- 2. Large rated current (15A)
- 3. Low profile (height: 8.0mm except lead terminal)
- 4. Effective for impulse noise such as electrostatic discharge or spike noise.

### **Applications**

- 1. Displays (PDP/LCD-TV)
- 2. Digital AV equipment
- 3. Amusement equipment
- 4. PC peripheral equipment
- 5. Industry equipment

1 of 3

#### Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued without advance notice. Please check with our sales representatives or product engineers before ordering.

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering

## Specifications

| Shape                          | Lead                                             |
|--------------------------------|--------------------------------------------------|
| Length                         | 12.0mm                                           |
| Length Tolerance               | ±0.2mm                                           |
| Width                          | 11.0mm                                           |
| Width Tolerance                | ±0.2mm                                           |
| Thickness                      | 8.0mm                                            |
| Thickness Tolerance            | ±0.5mm                                           |
| Rated Current                  | 15A                                              |
| Operating Temperature<br>Range | -40°C to 125°C                                   |
| Mass(typ.)                     | 2.0g                                             |
| Rated Voltage                  | 25Vdc                                            |
| Withstanding Voltage           | 62.5Vdc                                          |
| Insulation Resistance(min.)    | 50ΜΩ                                             |
| Insertion Loss                 | 100kHz to 1GHz:40dB min.<br>(Line impedance=50Ω) |

# **Product Data**

#### Insertion Loss Characteristics

In operating temperature exceeding +85°C, derating of current is necessary for BNX01□ series. Please apply the derating curve shown in chart according to the operating temperature.

Derating of Rated Current

**Equivalent Circuit** 

In case of using ± power line, please connect to each terminal as shown.

**Derating of Rated Current** 

**Derating of Rated Current**
