Product Overview		Technical Specifications		Ratings & Reviews	
MGE Galaxy 3000 Features & Benefits					
Total Cost of Ownership					
Input power factor correction		Minimizes installation costs by enabling the use of smaller generators and cabling.			
Fully-rated power kVA equals kW		Reduces cost by eliminating the need for an oversized UPS for Power Factor Corrected (PFC) loads.			
Serviceability					
Front-access servicing		Simplifies installation and UPS maintenance while minimizing space requirements.			
7x24 telephone technical support		Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you need is there when you need it.			
Multiple levels of service		With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you.			
Availability					
SmartSlot		Customize UPS capabilities with management cards.			
Parallel-redundant capable		Power the connected equipment with multiple uninterruptible power supplies to increase system redundancy			
Dual mains input		Increases availability by allowing the UPS to be connected to two separate power sources.			
Network manageable		Provides remote power management of the UPS over the network.			
Automatic internal bypass		Supplies utility power to the connected loads in the event of a UPS power overload or fault.
