Looking to streamline recordkeeping? The 4850dr is a fully-featured document imager designed to digitize paper documents for simple and efficient paperless processing, storage and retrieval. Unlike traditional document scanners, the 4850dr has no moving parts, requires no regular maintenance, scans barcodes, and comes with a superior three-year warranty.

Specifications

Broad Connectivity Options: Supports TWAIN, SANE, and USB drivers, each with the imaging SDK library pre-loaded.

Barcode Scanning Functionality: Provides the added flexibility of scanning linear, stacked, and 2D bar codes, eliminating the need for purchasing a standalone barcode scanner.

Integrated Image Enhancement & Processing Tools: Tools to adjust captured images, including sharpening, contrast and digital zoom. A full range of automatic and selectable file compression options.

Purpose-Built for Document Imaging: Imager, stand and document tray work together as an integrated document imaging solution and eliminate the need for adjustment due to varying document sizes.

Versatile Document Imaging Performance: Adaptus Imaging Technology enables imaging documents up to 8.5x11" or A4 size, and specialized white illumination ensures crisp images regardless of document or font color.

Durable & Reliable Technology: Solid-state components with no moving parts, backed by a three-year comprehensive warranty.

Kit

4850DR153C-0F00E 4850DR USB KIT: USB KIT, BLK, W/STAND

Scanner Only - cable sold separately

Cables

Stands/Holders/Cordless Bases/Access Points
