The original HE rectifier

Since setting the new standard for rectifier efficiency, the Flatpack2 HE family is now available in a variety of voltages and power ratings, all with superior efficiency up to 96.5%.

With close to 100 billion in-field operating hours and a proven cumulative field MTBF of more than 2,6 million hours, Flatpack2 HE is the HE (High Efficiency) rectifier with the longest proven track record.

The line of systems available for Flatpack2 HE 48V rectifiers spans from 8kW 2U racks with complete distribution to multi-cabinet systems in multi MW installations.
