SMD

Aimtec's AMSRL1-Z series was developed to appeal to customers thanks to its compact size and high efficiency. Continuing this trend, Aimtec is proud to announce a new 1A non-isolated switching regulator, the AMSRL1-Z series, to better meet the market demand.

The new AMSRL1-Z series is a compact open frame design measuring 15.2 x 11.8 x 3.6mm with ultra-low height profile ideal for SMD soldering. The series feature an ultra-wide input voltage range of 3-36V, continuous short-circuit & over-temperature protection and low ripple noise (typ.: 50mV). These models target a diverse range of applications such as industrial control, IoT, grid power, instrumentation, mining, and other related industries where limited board space is a key concern. The new 1A series can accommodate operating temperature from -40°C to +105°C and offer conversion efficiency up to 94%.

Features

- Wide Input Range: 3VDC - 36VDC
- Operating Temp: -40 °C to +105 °C
- Low ripple & noise, up to 50mV(p-p)
- Output short circuit, over-temperature protection
- Regulated Output
- SMD type package
