Jumper Wires Premium 6" F/F - 20 AWG (10 Pack)

PRT-11710 ROHS

DESCRIPTION FEATURES

Jumper wires are awesome. Just a little bit of stranded core wire with a nice solid female connector on either end. They have the flexibility of stranded wire but will fit directly onto male pin headers. The only downside to the standard jumper wires we carry is that they're a tad too thin to use for most power applications, so we got some beefy ones!

These 20AWG jumper wires work just like our smaller gauge premium jumpers except that they can handle a little more juice. If you've ever been unsettled by warm jumper wires, give these a try! This pack contains ten 6" jumpers with a female pin header on either side.

wow these were a life saver i have huge hands and these make it easy for me to test or use in tight places

5 Tough little jumpers!

about 2 years ago by K Watts verified purchaser

I've purchases cheap jumper cables elsewhere but the connector pull off easily and they're not very tough. They female connectors are on there very well and the wire is thick enough that I don't have any problems with these jumpers!

5 Great

about 10 months ago by Member #683339 verified purchaser

These are great, good build quality.

I've ordered similar ones from other places and they are always flimsy.

These one feel sturdy.
