

## BOARD LEVEL COOLING – CHANNEL 5230

Channel 5230 is a series of channel board level heat sinks designed to cool TO-220 devices. Representative image only.

## ORDERING INFORMATION

| Part Number   | Device Type |
|---------------|-------------|
| 523002B00000G | TO-220      |
| 523002D00000G | TO-220      |
| 523002T00000G | TO-220      |

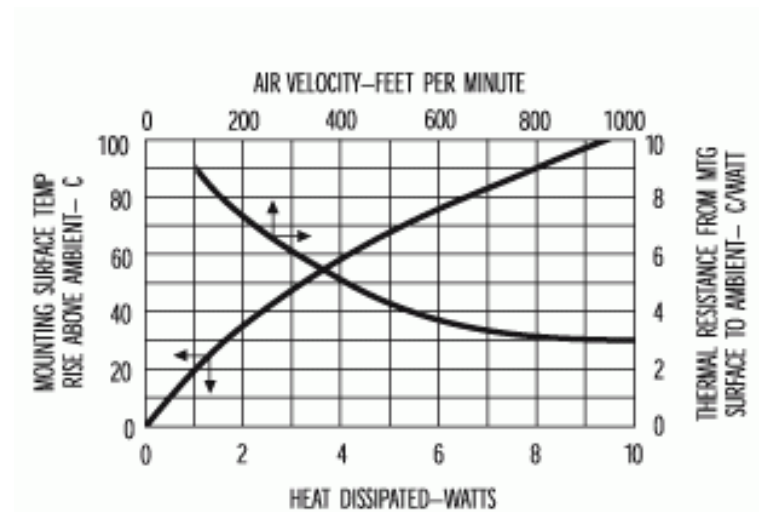

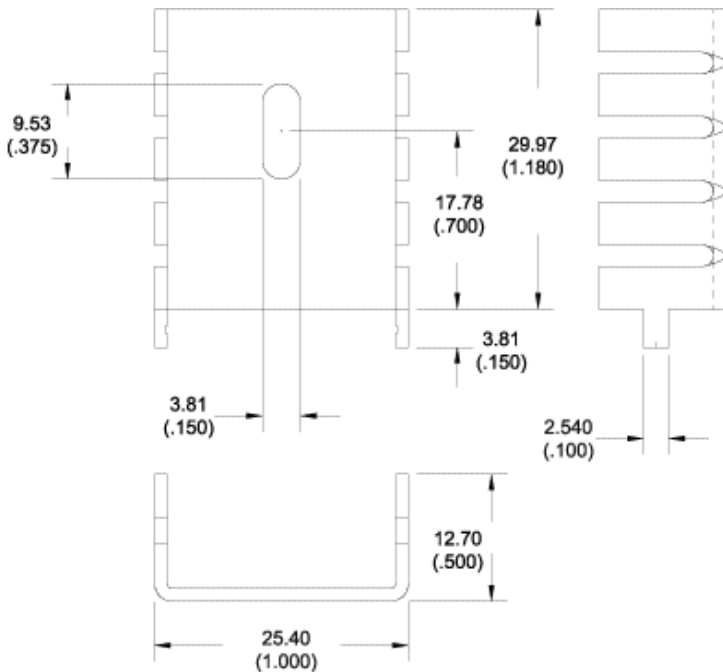

## HEAT SINK DETAILS

| Property                          | Details               |
|-----------------------------------|-----------------------|
| <i>Material</i>                   | Aluminum              |
| <i>Finish: 523002B00000G</i>      | Black Anodize         |
| <i>Finish: 523002D00000G</i>      | Tin Plated            |
| <i>Finish: 523002T00000G</i>      | Black Paint           |
| <i>Device Attachment Options</i>  | Requires Mounting Kit |
| <i>Thermal Interface Material</i> | -                     |

| Property                            | Details  |
|-------------------------------------|----------|
| <i>Heat Sink Width (mm)</i>         | 25.40    |
| <i>Heat Sink Length (mm)</i>        | 12.70    |
| <i>Heat Sink Height (mm)</i>        | 29.97    |
| <i>Heat Sink Mounting Direction</i> | Vertical |
