

413B

Heavy Duty Flux Remover

413B Heavy Duty Flux Remover is specially formulated to dissolve and remove the most stubborn, encrusted, hard, baked-on fluxes and residues left on parts after soldering. It penetrates quickly to remove non-ionic and ionic contaminants left on the non-component sides of circuit boards. It can also work aggressively on isolated and hard-to-reach areas that require spot cleaning. It is also available in aerosol format.

413B is the best flux cleaner for removing rosin, non-rosin, no-clean fluxes, non-ionic and ionic contamination.

For plastic safe versions, visit 4050A and 4140A flux removers.

Features & Benefits

RoHS Compliant

Quickly dissolves burnt-on flux

Fast dry time

Zero residue

Storage and Handling

Store between -20 and 27 °C in a dry area, away from sunlight. Store in well-ventilated places (see SDS).

Available Packaging

Part #	Packaging	Net Vol.	Net Wt.
413B-425G	Aerosol	498 mL	425 g

Properties

Density @ 25 °C	0.8 g/mL
Viscosity @ 25 °C	<20.5 mm ² /s
Flash Point	-18 °C
Boiling Point	≥56 °C
Auto-ignition Temperature	425 °C
Water Miscibility	Partially miscible
Shelf Life	5 y
