TECHNICAL DETAILS

DESCRIPTION

Hear the good news! This wee speaker is a great addition to any audio project where you need 8 ohm impedance and 1W or less of power. We particularly like this speaker as it is small and comes with nice skinny wires with a connector on the end. It has a handy "Molex PicoBlade" 1.25mm pitch 2-pin cable, which makes plugging into a board easy. Or you can cut off the connector and just solder/clamp onto the wires directly.

This speaker will work perfectly with our HalloWing M0 Express - it even snaps into the speaker connector onboard. But you can also use it with any of our mono audio amps, such as the PAM8302 or MAX98357A mono class D amplifiers.

New Products 8/29/2018 Featuring #Google #AIY Vision Full Kit! @a...

TECHNICAL DETAILS

- Speaker weight: 1.4g
- Dimensions: 30 x 20 x 5mm
- Wire Length: ~110mm
- Connector: Molex #0532610271, "PicoBlade" 1.25mm pitch

LEARN

HalloWing Lightsabers
Create your own motion reactive laser swords with the HalloWing and NeoPixel strip.

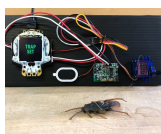

AdaBox 009
Explore and use the contents of your AdaBox 009

Milk Jug Glow Skull
You can turn a milk jug into a light diffusing, screaming, inner-lit skull filled with HalloWing-driven NeoPixels
