

## Piezo Igniter

COM-10234

★★★★★ 2

### DESCRIPTION

This piezo igniter can be used for all sorts of applications where you need a spark to make fun things happen. With a large red button, easy mounting, and a long detachable ignition cable, this would be a perfect fit for your next spud cannon, rocket launcher, or flamethrower.

The igniter itself is about 3.5" long, with a 0.65" diameter barrel (for mounting). The cable is just over 2 feet in length.

★★★★★ Igniter replacement

about 3 years ago by Member #703875  verified purchaser

Downloaded from [Arrow.com](#)

Igniter replaced original part perfectly.

★★★★★ Item delivered on time and as described on website

about 2 years ago by **Member #820597**  verified purchaser

Used this device to add to my weed burner torch to assist in lighting it.

Works great

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
