OpenMV Global Shutter Module

⊘ SEN-16775

Retired Product
This product has been **retired** from our catalog and is no longer for sale. This page is made available for those looking for datasheets and the simply curious.

ℹ️ **Notice.** This product requires other products in order to function properly.
See essential products.

DESCRIPTION   FEATURES   DOCUMENTS

The Global Shutter Camera Module allows your OpenMV Cam to capture high quality grayscale images not affected by motion blur. The module features the MT9V034 Global Shutter Camera Module capable of taking snapshot pictures on demand along with being able to run 80 FPS in QVGA mode, 200 FPS in QQVGA mode, and 400 FPS in QQQVGA mode. The Global Shutter Camera Module is the ultimate sensor for machine vision enthusiasts who want to use their OpenMV Camera in professional products.
