INTRODUCTION

Get the most out of your Raspberry Pi 4B with this high-quality aluminium case! Designed for [Raspberry Pi 4 Model B](#), these cases are lightweight, durable and strong. Besides, the product offers a high heat conductivity and excellent corrosion resistance, which is able to better protect your [Raspberry Pi board](#). The anodizing process performed on the surface of the metal greatly improves the quality of the case visually and tactually. All ports and slots of the case can match with [Raspberry Pi 4 Model B](#) perfectly. Meanwhile, there are mounting holes on the bottom designed for conveniently fixing the device on the wall.

Ports and Slots of the Case

Four cooling fan holes and heat vent are reserved on the case, so users can install one fan inside the case to provide better heat dissipation for your board.

Note: [Raspberry Pi 4 Model B](#) board is not included.

Product Dimension

SPECIFICATION

- Compatible with [Raspberry Pi 4B 1G/Raspberry Pi 4B 2G/Raspberry Pi 4B 4G](#)
- Material: aluminium alloy
- Dimension: 90×60×30mm/3.54×2.63×1.18"

That look like a good case....BUT I am missing a push-button to connect to a GPIO in order to perform a shutdown, since most of my projects are headless and sometimes not even on LAN/WiFi and I really do not want to drag a Screen and keyboard with me. A pity that most case manufactures seem to miss this.
