

This kit contains not only vibrant colored, toxic free lightweight modeling clay, but also [high quality color LEDs](#) and [motion sensors](#) to make your sculptures "alive".

With up to 5 colors of clay and 2 colors of [LEDs](#), you will be able to create a full color spectrum and make your creation look fabulous. You can make use of these LEDs as eyes, stars or whatever you want, and use the [motion sensor](#) as a trigger. For example, a cat that blinks eyes when you come close or walk by. This [PIR \(Motion\) Sensor](#) can detect the infrared signals from the person or animals which are moving, and can output the switching signal.

Notice

- Fully knead before use.
- Sealed for preservation, avoid direct sunlight.
- Spring some water to continue kneading if the surface is dry.
- Let it dry naturally in the air.
- Prohibit children from eating the clay or choking.
- Fully dry the electronic component, if it got wet.
- Slowly pull and plug to replace the LEDs.
- Check the battery if the LEDs can't light up.

DOCUMENTS

- [Assembly Manual](#)
- [4Claying Interactive Kit ESPAÑOL \(Spanish\)](#)

SHIPPING LIST

- Creator-4Claying Interactive Kit x1
