WEE1M Features

Data Center Operation: Energy Efficiency, 1 Month Software Support Contract

7x24 telephone technical support	Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you require is available at any given time.
Service warranty certificate	Customers receive assistance from the Service Entitlements team to ensure their product is properly recorded. An e-mail Service Entitlement Certificate provides a detailed record of the service registration, along with the service expiration date.
Software upgrades	Software support contracts entitle customers to all software upgrades and updates, ensuring access to new features and product enhancements.

Data Center Operation: Energy Efficiency Features & Benefits

Convenience

Live dashboard	Gain transparency to data center key performance indicators through easily configured web dashboards, displaying customizable management-level information.
Easy deployment	Reduced installation time and costs with a minimum number of power meters required for deployment
Web-enabled interface	Created for easy integration with 3rd party web page through an open platform.
Multi-vendor data integration	Enables integration with 3rd party enterprise and building management systems, such as TAC by Schneider Electric, for data gathering, customization, and integration of PUE/DCiE calculations.

Total Cost of Ownership

Energy efficiency analysis	Provides current and historical PUE and DCiE values based on the current IT-load for a fact-based understanding of energy efficiency at the facility level.
Carbon footprint	Shows the CO2 footprint for each energy sub-system, for instant measurement of impact on the environment.
PUE/DCiE report	Provides a report on current & historical PUE/DCiE values, showing the effect of changing seasons and is suitable for both internal and external display.
Subsystem losses	Provides insight into energy losses and cost of energy at subsystem level, providing details of which subsystem draws the most costs.

Protection

Read-only Access	Share access without risking unauthorized configuration changes.
Password Security	User-selectable password with strong password rules and reset password mechanism.
User roles	Enable location and feature-based access through multi-user login and individual levels of user roles.
Multi-user access	Enables several users to carry out work on the application simultaneously and merging changes from different users seamlessly.

Agility

Localization	User interface available in major local languages; English, French, German, Spanish, Russian, Traditional Chinese, Simplified Chinese, Japanese, Korean, Brazilian Portuguese & Italian.
--------------	--

Availability

No measured data required	Utilizes measured or modeled data, allowing for usage with few or no power meters.
Power dependency editor	Provides an overview of the power path through the facility, including a hierarchical break-down of the power flow from where the power enters the building down to the main Power Distribution Unit (PDU).
