| Product Overview | |
|--|---|
| Ratings & Reviews | |
| MGE Galaxy PW Features & Benefits | |
| Manageability | |
| Network management capability | Full-featured network management interfaces that provide standards-based management via Web, SNMP, and Telnet. |
| LED status indicators | Quickly understand unit and power status with visual indicators. |
| LCD graphics display | Text and mimic diagrams that display modes of operation, system parameters and alarms. |
| Serviceability | |
| Multiple levels of service | With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you. |
| 7x24 telephone technical support | Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you need is there when you need it. |
| Front-access servicing | Simplifies installation and UPS maintenance while minimizing space requirements. |
| Availability | |
| Frequency and voltage regulation | Gives higher application availability by correcting poor frequency and voltage conditions without using the battery. |
| Parallel-capacity capable | Increases total power capacity by using multiple uninterruptible power supplies simultaneously. |
| Generator compatible | Ensures clean, uninterrupted power to protected equipment when generator power is used. |
| Temperature-compensated battery charging | Prolongs battery life by regulating the charge voltage according to battery temperature. |
| Dual mains input | Increases availability by allowing the UPS to be connected to two separate power sources. |
| Parallel-redundant capable | Power the connected equipment with multiple uninterruptible power supplies to increase system redundancy |
