

Chloroprene tubing and grommets TH170X50BK

Helsyn TH, Article number: 600-02497

Downloads

Features

- Highly elastic, easy to fit chloroprene tubing
- Withstands up to 120°C intermittent temperature
- Covers many cable diameters with one size
- Available in cut lengths

Certifications & Approvals

Application

The chloroprene tubings are ideally suited to rigorous environments such as the automotive, aerospace, mass transit and defence markets.

As the material is highly elastic, it's original size can be expanded 500% on application and 200% in continuous use.

To save time and effort when fitting the tubings, try the HellermannTyton NA three prong tools (see Chapter 6.3) and the Hellerine lubricant (see end of Chapter 2.3), which are specially designed for use with HellermannTyton chloroprene tubing
