Products > CUTTING PLIERS & PLIERS > CRIMPING TOOL

Heavy duty ratchet action crimp tool with a toggle mechanism for prolonged use.

The applicable non-insulated terminals.

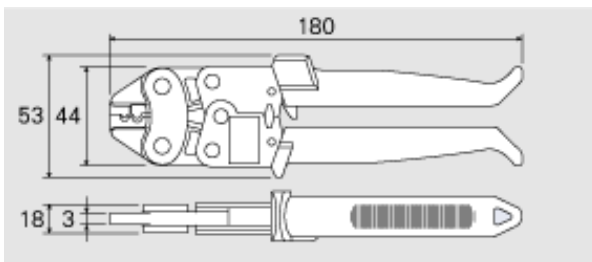

With the P-732, after crimping is complete, you can find an embossed mark of the size on the terminal.

This crimp tool with a toggle mechanism can clamp to a non-insulated terminal by one-handed operation lightly easily.

Heavy duty ratchet crimp action ensures repeatable and reliable connection terminations. A ratchet prevents the tool opening until the crimp is complete, for that reason place the non-insulated connector on the applicable die of the jaws and squeeze the handles together until the tool re-opens. Internal coil springs maintains comfortable opening and closing for prolonged use. Non-slip comfortable fitting feeling of elastomer handle grips with reduce a fatigue of operators.

Part Number	P-732
Product Name	CRIMPING TOOL

Specifications	
Cavity	1.25/2.0mm ²
O.A.L.	180mm
Weight	270g

Part Number	P-732-6
Product Name	REPLACEMENT SPRING

For P-732/733/736/740
