INTRODUCTION

This is a metal heat dissipation kit designed specifically for [Raspberry Pi 5](#). The case is made entirely of metal, offering strong thermal conductivity and high strength. The kit includes a metal case, equipped with a heat-dissipating copper sheet, an adjustable-speed fan, and heat-dissipating holes on the top of the metal case.

With this case, not only can it effectively protect the motherboard, but the adjustable-speed fan can also automatically adjust its speed based on the temperature of the Raspberry Pi 5, ensuring efficient heat dissipation and maintaining stability and reliability during high-performance operations.
