Jumper Wires Premium 6" M/M - 20 AWG (10 Pack)

PRT-11709 ROHS✔

★★★★★ 1

DESCRIPTION FEATURES

Jumper wires are awesome. Just a little bit of stranded core wire with a nice solid pin connector on either end. They have the flexibility of stranded wire but will fit directly into breadboards and female pin headers. The only downside to the standard jumper wires we carry is that they're a tad too thin to use for most power applications, so we got some beefy ones!

These 20AWG jumper wires work just like our smaller gauge premium jumpers except that they can handle a little more juice. If you've ever been unsettled by warm jumper wires, give these a try! This pack contains ten 6" jumpers with a male pin header on either side.

Excellent just the right size

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
