★★★★★ Works great with webcam

about 5 months ago by **Member #871014** 

Used this along with Omega2+ to make WIFI webcam using an old USB webcam. Works great.

★★★★☆ As Advertised, could always improve

about 5 months ago by **Rokmonkey** 

Wired it up no problem, it booted fine and worked just fine.

I would say, I would much rather have screw terminals (real ones) to wire up the Onion or Raspberry Pi. You can only do so much real work if all you have are headers and certainly nothing robust.

SUBSCRIBE TO NEWSLETTER

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
