Product Registration

Product Overview		Ratings & Reviews	
EPS 8000 Features & Benefits			
Availability			
High availability architecture		Different running modes : hot stand-by, integrated parallel, or centralized static switch for multi-modules leading to availability architectures	
Manageability			
Intuitive monitoring		Step by step navigation and menu screens for critical system information and data. Information is easy to access and presented in a very intuitive way.	
Compatibility			
Parallel capability		Multiple units can be placed in parallel to meet power capacity and redundancy requirements	
Output synchronization to external source		UPS systems can be synchronized with any other independent source for use with downstream static transfer switches.
