

SmartRack Side Panel with Key-Locking Latches for 48U Server Rack Cabinet, 1 Panel

MODEL NUMBER: SR48SIDE

Locking steel panel attaches to the side of your SR48UB-based server rack enclosure.

Features

Single Steel Side Panel for Installation on Your 48U Rack Cabinet

The SmartRack® SR48SIDE side panel features pre-installed key-locking latches for securing your rack equipment against tampering and theft. Designed for standard-depth SR48UB rack frame, this panel can also be added to the side of an expansion cabinet (SR48UBEXP) when application needs have changed or onto a wide cabinet (SR48UBWD) as the depth remains the same. They can also be used as replacements for existing side panels.

Convert an Expansion Cabinet into a Cabinet with Side Panels

When needs change and you want to separate your expansion rack cabinets (such as SR48UBEXP), add four** SR48SIDE heavy-duty steel panels to the sides of them to convert the racks into standard cabinets. Note: This package includes only one (1) singular panel. You will need to purchase four SR48SIDE panels to completely populate an expandable rack.

Specifications
