75 Years

of
Interconnect
Manufacturing
Excellence

At **Amphenol Cables on Demand™**, *you will find...*

Outstanding Quality and Reliability for Cables and Connectivity Products

- Continuous innovation to keep up with the latest technology
- Only the best materials are used to manufacture our products
- Premium-quality products at competitive prices

Over 75 Years Designing & Manufacturing Leading Interconnect Technology for

- OEMs (Original Equipment Manufacturers)
- Industrial and Broad Market Distributions
- VARs (Value Added Resellers)
- SMBs (Small and Medium-sized Businesses)

A Truly Scalable Supply

- Design with confidence — Amphenol supports low-volume and high-volume production phases
- Top quality at competitive prices
- One piece or one million — the millionth piece identical to the first
- Leading OEMs choose Amphenol for their large-scale cabling needs
- Low-volume orders can be ordered online at any time

What else should you know about Amphenol Cables on Demand™?

- A broad range of products in stock
- Knowledgeable and dependable customer service representatives
- FREE technical and customer support

RoHS Compliant

*Same-day shipping if order placed before 3pm (ET).

Leading Interconnect Products & Services

For over 75 years, Amphenol has been committed to producing the highest quality cable assemblies. Our products are manufactured with the premium materials and are designed to provide complete customer satisfaction. We offer a wide range of connectivity products such as audio, video, FireWire, and coaxial cables, connectors, accessories, and much, much more! Visit our website at www.CablesonDemand.com for all your cabling and connectivity needs. The many awards that Amphenol has received over the past decades prove that we are the best in the industry.

Shop Our Entire Cable Collection

Our complete line of audio, video, FireWire, coaxial, fiber optics, patch, GPIB and optical module cables are all on view and ready for purchase at www.CablesonDemand.com. Our website is updated daily, so visit regularly and view our catalog online to see the latest products and services.

Both our printed catalog and our online catalog offer full product descriptions and specifications.

Custom Cables

All current cabling products offered in our catalog or on our website can be customized to meet your needs. Please contact us if there is a product you need in custom cable lengths or with different connector types. Our experts are here to help you develop the perfect cable assemblies. Call us at 1-866-ACD-2860 or 1-607-321-2115 for more details.

All Major Credit Cards Accepted

We accept Visa, MasterCard, American Express, and Discover.
No minimum purchase* is required.

* Amphenol's no-minimum order policy lets you buy products for discounted prices even for small orders. We offer larger discounts on bulk purchases, but are always happy to sell you just one of our large selection of products. The more you order, the more you save!

VGA / SVGA

VGA cables are the standard cables used to connect monitors and graphics cards. Although the VGA cable is a very common cable, Cables on Demand is committed to providing VGA cable assemblies that exceed the usual standards. Amphenol VGA cables are fully shielded and overmolded to provide superior EMI/RFI protection and maximum strength. Amphenol VGA cables are RoHS compliant and are available in many different lengths.

Amphenol *Cables on Demand™*

Order Online: **www.CablesonDemand.com**

Consider this scenario. You have managed to convince a large audience of important, but skeptical decision makers to listen. You are ready to give your presentation and then your worst nightmare occurs. A flicker on the screen — you hold your breath — and the presentation suddenly becomes skewed and unreadable. This is a common problem that often results from cables with insufficient shielding or inferior strain reliefs. Don't let this happen to you. Select only Amphenol cables for all your mission-critical AV needs.

EVC

Enhanced Video Connector (EVC) cables are widely used with flat-panel displays and digital monitors. With today's high-resolution screens, you need Amphenol EVC cables to help deliver maximum performance. Amphenol's EVC cables perform equally well with both analog or digital signals and are fully compatible with FireWire and USB interfaces.

Enhanced Video Connector (EVC) Cables

• *The Plug & Display (P&D) video interface connector*

• *30 + 4 pin standard signal pins for high-bandwidth video transmission*

RGB

Today's video products, computers, and workstations that demand the highest resolution in RGB signals now have a solution—Amphenol coaxial cables. Amphenol's coaxial cables are designed for the utmost in quality and durability. They are fully shielded and overmolded: this ensures high-quality signal transmission throughout the entire lifespan of the cable. Various connector genders and cable lengths are always available.

Amphenol *Cables on Demand™*

DVI

The latest digital projectors, plasma screens, and LCD screens all feature Digital Video Input (DVI) inputs to maximize picture quality. Amphenol DVI cables have been designed to help these devices operate to their full potential by delivering maximum signal quality. Amphenol's DVI cables, which are fully shielded and overmolded to provide superior EMI/RFI protection and maximum strength, are available in many configurations and lengths.

Digital Video Interface (DVI) Configurations

Analog and Digital (DVI-I)

DVI-I Single Link

DVI-I Dual Link

Analog Only (DVI-A)

DVI-A

Digital Only (DVI-D)

DVI-D Single Link

DVI-D Dual Link

The Dual Link Interface contains another set of red, green, and blue twisted pairs for more bandwidth of signal transmission.

RCA

Amphenol's line of RCA cables is packed with many features and options. From the premium quality 3-line component set to the Thin Line series, our cables are built for performance and reliability. To ensure optimal performance in strenuous situations, Amphenol cables are fully shielded and overmolded, and where specified, feature 75 ohm impedance for reduced signal loss.

HDMI

Hdmi cables are quickly becoming the industry standard in high-definition technology. HDMI cables not only enhance picture quality and sound, but also make it easier to connect your high-definition devices, thanks to the HDMI cable's all-in-one design. Amphenol HDMI cables are fully shielded to provide superior picture and sound quality, as well as EMI/RFI protection. In addition, Amphenol HDMI cables are overmolded to ensure maximum durability.

High-Definition Multimedia Interface (HDMI) Cables

- *An all-digital audio / video interface connector*
- *19 pins to transmit uncompressed signal streams*
- *High-definition video and multi-channel digital audio on a single cable*
- *Hot pluggable*

Security systems cannot be secure when using inferior cables. Count on our audio and video cables for true signal integrity.

Coaxial

50 Ohm Coaxial
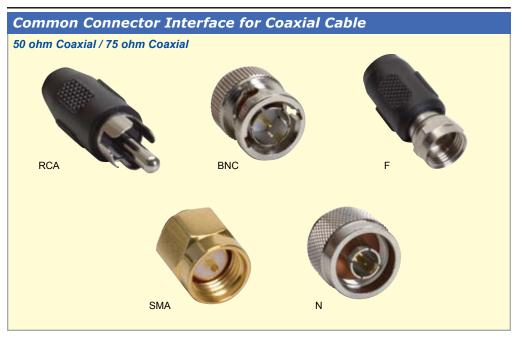

At Amphenol, we understand the importance of zero data loss during signal transmission over video and Ethernet networks. For this reason, we have designed our 50 and 75 ohm coaxial cables to perform at the highest level possible. Amphenol uses only premium quality materials to manufacture these cables. Customization of your home, office, or lab is made easy with our extensive inventory. Order these cables in different options and sizes today!

Common Connector Interface for Coaxial Cable

50 ohm Coaxial / 75 ohm Coaxial

RCA   BNC   F

SMA   N

50 ohm Coaxial

Countless business and residential applications require the use of 50 ohm coaxial cables. People depend on these cables to provide the best video signals possible. Amphenol understands this importance and has designed coaxial cables that include many great features and options, such as high-grade PVC jackets and gold-plated center contacts. Amphenol 50 ohm coaxial cables can be ordered in many different lengths to meet your customization needs.

75 ohm Coaxial

Amphenol's 75 ohm coaxial cables are the perfect choice for all of your video signal transmissions. From surveillance camera systems to cable television, our 75 ohm coaxial cables always deliver the best signal possible. Every Amphenol 75 ohm coaxial cable is thoroughly tested to ensure that its shielding will always provide maximum protection while allowing top performance to be delivered, in any application. Amphenol 75 ohm coaxial cables are always in stock and ready to be shipped to you today.

Amphenol *Cables on Demand™*

D-sub

If you want to maximize the performance of your office equipment, do not overlook your cables. A great cable can mean the difference between receiving all of your transmitted data or receiving incomplete or corrupted data. Amphenol D-sub cables are available with several options and in many lengths and genders. Some of the options available include high-grade PVC cable jacketing and double shielding with braid and foil layers. These two options ensure that your data is protected and will always transfer correctly.

Standard (DB) D-sub configurations

Connecting and accessing your computer devices is essential in everyday operations. Whether you are working with a network of storage devices or on your own PC, you need these devices to run at their full potential. Amphenol understands this and offers a comprehensive selection of computer cables to satisfy all your interconnection needs. From our D-sub cables to our InfiniBand cables, Amphenol products are designed and manufactured to perform reliably with your PC, servers, storage units, and keyboards.

Leading I/O and storage systems companies rely on Amphenol products to ensure optimal data throughput and the highest signal integrity in the most challenging physical and electrical environments. Don't trust your data to anything less than Amphenol Computer Storage and I/O cables.

DIN

Over the course of time, DIN cables of lesser quality can deteriorate. This deterioration can result in reduced productivity and increased work time. To prevent this, Amphenol has developed a great line of high-quality DIN cables. Amphenol DIN cables are available with high-grade PVC cable jacketing and fully molded connectors, as well as standard and double shielding. These features ensure maximum durability and protection against EMI and RFI. Many different options and lengths are available.

Amphenol *Cables on Demand™*

IEEE 1394

The IEEE 1394 cable, commonly known as FireWire®, is a popular choice for high-speed data transmission with many types of electronic devices, such as computers and consumer electronics. To ensure that our customers get the most from their electronic products, Amphenol has designed and manufactures a high-performance line of FireWire® cables.

Common IEEE-1394 Firewire® Connectors

Type 1 (6 position)

Type 2 (4 position)

Type B (9 position)

Were your cables flex tested? How about environmentally tested? Tested for skew? Jitter? EMI? Return loss? High voltage? Are they RoHS compliant? Every Amphenol cable assembly is the result of 75 years of advancing interconnect performance. Each connector, each contact, each strand of wire that Amphenol uses has passed a myriad of development and production tests to become an offering worthy of our name.

Amphenol *Cables on Demand™*
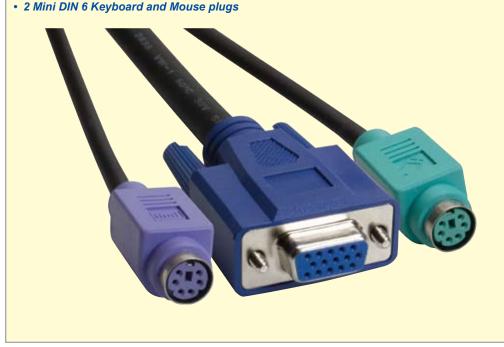

KVM

Computer installations can quickly become complicated when dealing with multiple devices. KVM cables allow you to use one keyboard, monitor, and mouse to control multiple computers, greatly reducing complication and wiring clutter. Amphenol KVM cables are available in a variety of lengths and provide excellent video quality due to their molded HD15 shielded connectors.

Keyboard, Video, Mouse (KVM) Cables

• **KVM Cables with HD15 Video**

• **2 Mini DIN 6 Keyboard and Mouse plugs**

Cables on Demand is your first step, helping you level the playing field against the big guys. We offer the same level of expertise and customer service regardless of the size of your business. Cables on Demand was launched with you in mind. Give us a call or order from our website.

Amphenol *Cables on Demand™*

SATA & SAS

Regardless of whether your storage application needs are small or enterprise class, Serial Attached SCSI (SAS) and Serial ATA (SATA) storage devices require high-performance cables. Amphenol's SAS and SATA cables meet this need and allow you to benefit from the increased bandwidth and greater number of devices that can be connected with these technologies. Amphenol SAS and SATA cables are ready for immediate delivery and are available with numerous options.

Serial ATA Cable* Features & Advantages

- *Straight and Right Angle configurations*
- *Provides end-to-end signal integrity for up to 3.0Gb/s data rates*
- *Thinner and more flexible cables offer convenience in routing and improved airflow*
- *World-class manufacturing and reliability to satisfy the demands of the desktop PC and server markets*
- *7 pin and 26 AWG cabling*

Serial Attached SCSI Cable* Features & Advantages

- *4 channel (4X)*
- *SAS (SFF-8470) Thumbscrew type connector*
- *Mini-SAS (SFF-8088) custom and unique push-to-release design*
- *24 / 26 / 28AWG wire options to assure signal integrity*
- *8 pair cable and 16 signal positions*
- *SFF-8470 effective to 3.0Gb/sec*
- *SFF-8088 effective to 6.0Gb/sec*
- *Superior zero EMI performance*

Suppose you are designing the next quantum leap in I/O or storage system hardware. Amphenol interconnect design leadership will help you ensure optimal performance. Over 4,000 Amphenol cable assembly experts throughout six countries are working on leading-edge storage and I/O interconnect solutions. Make our experts part of your team. Today you only need a few cables for your prototypes. Tomorrow, you may need millions of cables for delivery around the world. Amphenol gives you a low-cost, seamless solution for taking your prototype to full-scale production.

SCSI

Amphenol's SCSI cables have been designed for high-speed transfer rates (up to 40MB/s) and maximum durability to ensure you get the best performance from your workstations, servers, and storage units. Amphenol SCSI cables are precision manufactured from premium-quality components and are available in various lengths and genders.

Connectors for Ultra-SCSI and SCSI-3 Cables* Features & Advantages

- *Stainless steel jackscrews*
- *EMI-shielded nickel-plated zinc diecast backshell*
- *High data transfer rate*
- *Improved impedance matching between external and internal cabling*
- *Reduced time delay skew*
- *Low crosstalk*

Amphenol *Cables on Demand*™

USB

Amphenol's USB product line offers superior quality with a variety of connector combinations to meet every USB cabling need. From our Low Smoke Zero Halogen cable which prevents PVC emissions to our large assortment of connector types, Amphenol has what it takes to meet your cable demands.

Common USB Connectors

Type A (4 position)

Type B (4 position)

Mini Type B (4 position)

Mini Type B (5 position)

Has this ever happened to you? You've finally purchased the printer that fits your needs after spending lots of time researching and shopping around, only to discover after opening the box that you need to buy a separate USB cable. No need to worry — you can purchase the cables you need at any time on our website, and we offer same-day shipping! All Amphenol USB cables are V2.0 compliant and are backwards compatible with USB V1.0 and V1.1 devices.

Amphenol *Cables on Demand™*

At 4-, 8-, or 10-gigabit speeds and above, you cannot tell if the cables you have selected will affect performance without using state-of-the-art processes and expensive test equipment. With lesser-quality net-working cables, skew and jitter can slow down your network. Amphenol networking cables set the performance standard for others to follow.

Fibre Channel

High-speed networking and data storage are vital contributors to a company's success. From small offices to large corporations, people depend on getting their data as quickly as possible. To ensure that your company's network has the fastest connections, use only Amphenol fibre channel cables, which support transfer rates of up to 4GB/s. The design of Amphenol's fibre channel cables provides maximum durability and protection against EMI.

Fibre Channel Cable Features & Advantages

- *Ultra-high performance*
- *Cost effective*
- *I / O connector designed for high-speed differential signal applications*
- *Low cross talk*
- *Low insertion loss*
- *Matched impedance*
- *Minimization of in-pair and pair-to-pair skew*

Amphenol *Cables on Demand™*

Order Online: **www.CablesonDemand.com**

Companies that develop next-generation high-performance computing architecture trust Amphenol to supply them with high-speed cables and interconnects that meet the maximum-performance needs of their clustered servers. Whether you need just one cable today for your desktop PC, or thousands more tomorrow for your new high-performance computing cluster, Amphenol has facilities around the globe ready to meet all of your cabling demands.

InfiniBand

Amphenol offers two types of InfiniBand cables for high-performance server clusters and enterprise-class data centers. The 4x InfiniBand cable can reach speeds of up to 10Gb/s and the 12x InfiniBand cable can reach speeds as high as 30Gb/s with copper interconnects. Amphenol InfiniBand cables are 100% double shielded to protect against EMI.

SD 4X InfiniBand

Amphenol SDR 4X InfiniBand cables feature 24 differential paired wires

8-differential pair wires:
Low cross talk
Low in-pair and pair-to-pair skew
Low insertion loss

Pull-to-Release design

Diecast Metal Enclosure

GigaCN™ connector meets SFF-8470 specifications

Fiber Optic

Fiber Optic

Singlemode 9 Microns — *Fiber Optic*
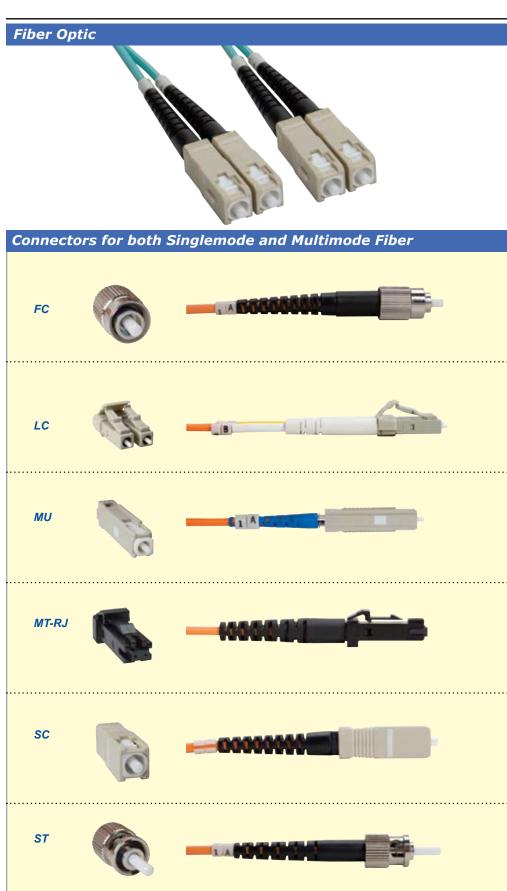

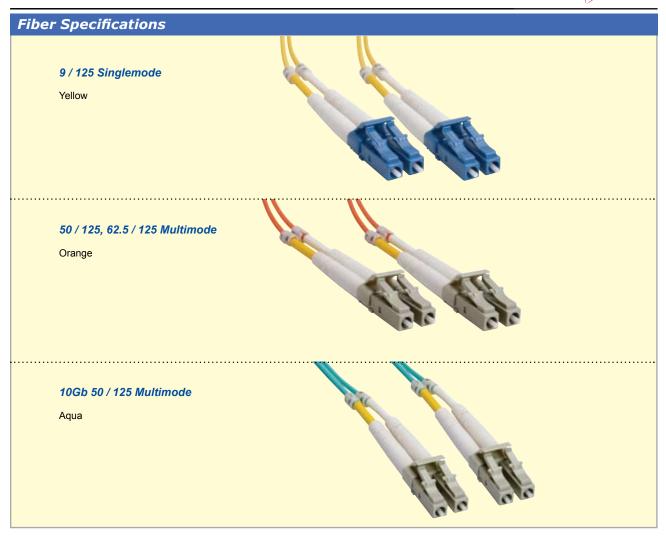

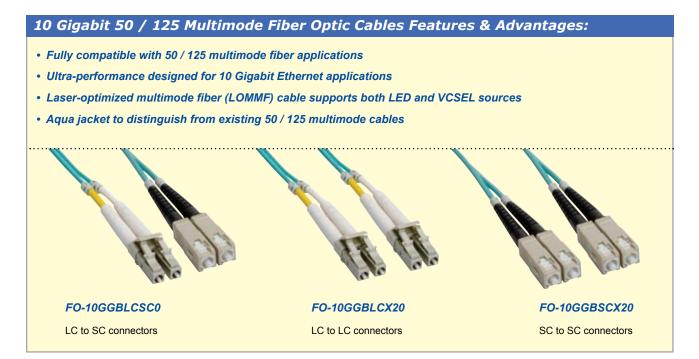

Cables on Demand offers a comprehensive line of singlemode and multimode products, including 10-Gigabit cables. ACD is committed to producing the highest quality fiber optic assemblies for both standard and custom designs. All Amphenol fiber optic cables are tested and exceed industry standards. We offer singlemode and multimode cables that can be ordered with different rated jackets, ranging from OFNP plenum to the Low Smoke Zero Halogen. The connectors come in various types and are designed for easy connection and removal from equipment.

Connectors for both Singlemode and Multimode Fiber

Amphenol focuses on maximum performance and durability when we develop our singlemode fiber optic cable. Three different cable assemblies are available: OFNP plenum, OFNR riser, and the Low Smoke Zero Halogen rated jacket. To provide maximum compatibility with your equipment, we offer various connector options and cable lengths.

Fiber Optic — **Singlemode 9 Microns**

Amphenol *Cables on Demand™*

Multimode 50 Microns

Amphenol offers a wide variety of multimode fiber optic cables. Amphenol's fiber cables are built with the highest quality materials and are available with different jacket options. You can pick from the OFNR riser, OFNP plenum, or Low Smoke Zero Halogen rated jackets. The connectors also allow easy connection and removal from equipment. Many connector options, lengths, and assemblies are available, so choose yours today.

Part Number	Description	Color	1 to 50	51 or more

Amphenol *Cables on Demand™*

Multimode 62.5 Microns

When selecting multimode fiber optic cables, it is essential to consider the specific requirements of the application. From building safety codes to connector options, a variety of specifications must be satisfied. Amphenol makes the task of choosing the right fiber optic cable easy by offering a product line with a wide range of options.

Part Number	Description	Color	1 to 50	51 or more

Loopback Tester

When you use Amphenol loopback tester cables, you can be confident that you are receiving 100% accurate test results. Amphenol loopback tester cables are precision manufactured from premium-quality components and are vigorously tested to ensure they meet industry requirements. To satisfy all of your optic test application needs, Amphenol offers a selection of cable assemblies with connector types such as SC, LC, FC, or MT-RJ.

Amphenol IEEE-488 GPIB cables are designed to ensure maximum durability and performance. The high-grade PVC jacket and diecast housing used in Amphenol IEEE-488 GPIB cables keep your connection protected and safe from interference. Amphenol IEEE-488 GPIB cables are available in various lengths to help ensure your installation remains neat and tidy.

Cat5E

High-speed access and reliability are essential in today's work environment. To meet this demand, Amphenol has designed a high-performance line of Category 5E cables. Amphenol's Category 5E cables, which can be ordered in different specifications to meet your needs, feature fully molded strain reliefs to ensure maximum durability and 2-pair or 4-pair 24AWG stranded wires to provide maximum flexibility and performance.

Mutimode SFP Optical Module

Amphenol SC Small Form Pluggable (SFP) transceivers feature a riveted die-cast backshell for improved ruggedness and EMI shielding. They also feature a push-to-release de-latch mechanism for easy module removal. Amphenol transceiver cables are SFP Multi-Source Agreement (MSA) compliant and our transceivers are Fibre Channel FCPI-2 400-M5/6-SN-1, and IEEE 802.3 Gigabit Ethernet compliant. The data transfer rate is 4 Gb/s for high-speed applications.

Optical Modules

SFP Transceivers are designed for use in Fibre Channel and Gigabit Ethernet applications.

Domestic Power Cord, UL / CSA Approved				
PW-018SPT2000-006.07	POWERCORD SPT2-18AWG NI / 15P-EN60320C7, 6' 7"	Black	$3.30	$3.24
PW-018DSVT300-006.07	POWERCORD SVT3-18AWG N5 / 15-PIGTAIL, 6' 7"	Black	$4.15	$4.07
PW-018DSVT300-007.06	POWERCORD SVT3-18AWG N5 / 15-EN60320C13, 7' 6"	Black	$4.59	$4.50
PW-018DSJT300-009.10	POWERCORD SJT3-18AWG N5 / 15-EN60320C13, 9' 10"	Black	$4.99	$4.90
International Power Cord, European, VDE Approved				
PW-ECD3001VDE-008.02	POWERCORD HO5VVF3GX1.00MM CEE7 / 7-EN60320C13, 8' 2"	Black	$6.75	$6.62
PW-ECD3002VDE-006	POWERCORD HO3VVH2F2X0.75MM EN50075-EN60320C7, 6'	Black	$5.75	$5.64
Universal Power Cord, UL / CSA and VDE Approved				
PW-018USJT300-003.03	POWERCORD SJT3-18AWG EN6032OC13 / C14 VDE, 3' 3"	Black	$3.58	$3.51
PW-018USJT300-006.07	POWERCORD SJT3-18AWG EN6032OC13 / C14 VDE, 6' 7"	Black	$3.99	$3.91
PW-018USJT300-009.10	POWERCORD SJT3-18AWG EN6032OC13 / C14 VDE, 9' 10"	Black	$4.45	$4.41
PW-018USJT300-015.00	POWERCORD SJT3-18AWG EN6032OC13 / C14 VDE, 15'	Black	$6.30	$6.18

Same Day Shipping Available

Toll Free: 1-866-ACD-2860

100-BaseT - A baseband, twisted-pair wire that supports a transmission speed of 100 Megabits per second.

10-BaseT - A baseband, twisted-pair wire that supports a transmission speed of 10 Megabits per second.

A **Abrasion Resistance** - Ability to resist surface wear.

Adapter - A device that provides a change in physical connection from one type to another.

Analog - Representation of data by continuously variable quantities.

ANSI - American National Standards Institute

ASA - American Standards Association

ASCII - American Standard Code for Information Interchange

Attenuation - Power loss in an electrical system.

AWG - American Wire Gauge. A measure of wire diameter.

B **Backshell** - A housing on a connector that protects the area where cable conductors connect to the connector contacts.

Bandwidth - The difference between the upper and lower limits of a given band of frequencies.

Baseband - A signal transmission measured from zero to its highest frequency.

Baud Rate - A data transmission rate measured in bits per second.

Bit - One binary digit.

BNC - "Bayonet Neil-Concelman". A coaxial cable connector used extensively in video and R. F. applications and named for its inventors.

Boot - A protective covering over a connector that provides strain relief to the cable jacket.

Braid - A fibrous or metallic group of filaments interwoven in a cylindrical form that acts as a shielding covering for an insulated conductor or group of conductors.

Breakout Cable – Also called a Fanout Cable. A conductor or group of conductors that breaks out from a multi-conductor cable to complete circuits at various points along a main cable.

Broadband - A signal transmission handled by more than one channel in a wide range of frequencies.

Byte - A group of eight binary digits.

C **CSA** - Canadian Standards Association

Cable Assembly - A length of cable with connectors on one or both ends which is ready to install.

CATV - Community Antenna Television

Centronics - The parallel interface named for the company, Centronics Data Computer Corporation, who was the first computer printer's manufacturer.

Cladding - The material surrounding the core of a fiber optic cable.

Coaxial Cable - A cable consisting of two cylindrical conductors with a common axis, separated by a dielectric layer.

Component Video - The highest quality type of analog video signal. Consists of two or more separate signals, normally two color signals, and a luminance or chrominance signal.

Component Video cable - A cable that transmits analog video signals. Features RCA or BNC connectors on three separate cables, usually colored red, green, and blue.

Composite Video - The most common analog video signal, in which all the picture information is combined into one signal.

Composite Video Cable - A single cable that transmits picture information. Composite Video Cable are usually yellow, with RCA connectors on both ends.

Conductor - A metallic path capable of carrying an electric current.

Connector - A device used to physically and electrically join two or more conductors.

Cord - A small, flexible insulated cable.

Core - The center of an optical fiber.

Crosstalk - A type of interference caused by leakage of signals from one channel to another.

CRT - Cathode Ray Tube

D **Decibel (dB)** - A unit to express the intensity of sound.

Dielectric - An insulating material between two conductors that permits electrostatic attraction and repulsion to take place across it.

Digital - Representation of data by discrete characters, i.e., 0/1 or high/low.

DIN - The German Institute for Standardization. Also a connector type that uses multiple pins arranged in circular fashion and a round-shaped housing.

Drain Wire - An uninsulated wire laid in a cable shield to make a ground connection.

Drop Cable - The cable pulled from telecommunication central office (CO) to the premises.

D-subminiature (D-sub) - A connector type that uses multiple pins and a D-shaped housing.

DVI - Digital Visual Interface. An interface developed by the Digital Display Working Group (DDWG) for the transmission of uncompressed digital video data to a display.

E **EIA** - Electronic Industries Association

EMI - Electro-Magnetic Interference. Undesired energy generated by outside sources of electric and magnetic fields.

FEP - Fluorinated Ethylene Propylene insulation

F **Ferrites** - Cylinders of magnetized iron placed on the end of data cables to reduce interference.

Foot - One foot equals 0.3048 meter.

Fiber - A single, separate optical transmission element characterized by a core and cladding.

Fiber Optics - A technology that uses light transmission through glass or plastic fibers to transmit data.

Fibre Channel - A scalable, high-speed, serial data transfer interface.

Flat Cable - A multiconductor cable in which wires are arranged in a parallel, flat configuration.

Firewire® - A proprietary name of Apple Inc. for the IEEE-1394 interface, also known as iLink by Sony. A high-speed serial bus interface standard for digital audio, digital video, and data storage.

Flexibility - The quality of a cable or a cable component which allows for bending under the influence of outside force.

FPL - Power Limited Fire Protective Signal Cable (NEC Art 760).

FPLP - Plenum rated Power Limited Fire Protective Signal Cable (NEC Art 760).

FPLR - For use between Risers Power Limited Fire Protective Signal Cable (NEC Art 760).

Frequency - The number of cycles per second.

G **Gauge** - A term to denote the physical size of a wire.

Gender - The type of connector on a cable (male or female).

Gigabit Ethernet - A network that has a data transmission rate of up to 1000 Megabits per second.

GPIB - General Purpose Interface Bus. An assembly typically used for interconnecting measurement devices.

Ground - A conducting connection between an electrical circuit and earth to make a complete electrical circuit.

H **Hertz (Hz)** - Number of cycles-per-second as a unit of frequency.

I **IEEE** - Institute of Electrical and Electronic Engineers. An organization of engineers and scientists that develops standards for the computer and electronics industries.

IEEE-1394 - Refers to Firewire®.

Impedance - The measure of a material's resistance to the transfer of electricity. It is a combination of resistance and reactance, measured in ohms.

Insertion Loss - The power loss due to the insertion of a component, connector, or device in a transmission line. Measured in dB.

Insulation - A material having high resistance to the flow of electric current.

Interference - An external disturbance that introduces an undesirable response.

ISO - International Standards Organization

J **Jack** - A female receptacle.

Jacket - An outer covering used for protection against the environment.

L **LAN** - Local Area Network. A computer network covering a local area.

Loopback - A troubleshooting technique to test functionality in which a device's transmit pin is connected to its receive pin.

Low Loss - Low in signal loss.

LVDS - Low Voltage Differential Signals. An electrical signaling system which runs at very high speeds with reduced on-chip power consumption.

M **Matched Impedance** - Where the impedance of one circuit equals the impedance of another circuit.

Meter - One meter equals 3.28 feet.

Mode (fiber) - A permitted field pattern within waveguide fiber.

Modular Jack - A female receptacle for RJ-11/12 (6 contact) and RJ-45 (8 contact) connectors, usually found at the end of a cabling drop.

Molded - A type of connector hood that is sealed in PVC plastic by an injection molding process.

Multi-Fiber Cable - An optical cable having more than one fiber.

Multi-Mode (fiber) - An optical waveguide that allows more than one mode to propagate. It is designed to carry multiple light rays concurrently at different reflection angles.

Mylar - DuPont's trade name for a polyester material.

N **NIC** - Network Interface Controller. A type of computer hardware that enables computers to communicate over a computer network.

O **OEM** - Original Equipment Manufacturer

P **PATA** - Parallel Advanced Technology Attachment. A standard 40-pin interface for connecting internal storage devices by a ribbon cable.

Patch Cord - An electrical cable that is used to connect a terminal device and a drop cable.

Pin - A metal contact inside a connector.

Pixel - A single point (picture element) in a graphic image.

Plenum - The area over a dropped ceiling or under a raised floor.

Plenum cable - A cable listed by Underwriters Laboratories as suitable for installation in plenums. The cable is coated with a fire-retardant coating.

PVC - Polyvinyl Chloride. An insulating and jacketing material used on a wide variety of cables.

Q **Quad Shield** - Shielding that is composed of two foil layers and two braided layers.

R **RCA** - Radio Corporation of America. The RCA connector, also known as a phono connector, is a type of electrical connector which is primarily used for connecting audio and video equipment. It consists of a central male connector surrounded by a cylindrical shield.

Resolution - The number of horizontal pixels by the number of vertical lines in a given area of an image.

Return loss - The ratio of the given power into a cable and the amount of optical power reflected back through the connector. Measured in dB.

RFI - Radio Frequency Interference. Unwanted reception of extraneous signals within the radio frequency band.

RG/U - Radio Government Universal. RG/U is the military designation for coaxial cable that is built to U.S. government specifications.

Glossary

RGB - Red, Green, Blue — The three primary colors.

RJ-11 - A type of registered jack that consists of a modular connector with six positions and two conductors (6P2C).

RJ-12 - A type of registered jack that consists of a modular connector with six positions and four conductors (6P4C).

RJ-45 - A type of registered jack that consists of a modular connector with eight positions and eight conductors (8P8C).

RoHS - Restriction of Hazardous Substances. The name for a directive passed by member nations of the European Union (EU) that restricts the use of certain substances in the production of electrical and electronic equipment.

S

SATA - Serial Advanced Technology Attachment. A 7-pin interface that provides a higher signaling rate and data throughput than the legacy ATA standard.

SCSI - Small Computer System Interface. A standard interface for transmitting data between a host controller and devices on a parallel computer bus.

Shield - A nonmagnetic, metallic layer placed around a conductor or group of conductors to prevent electrostatic or electromagnetic interference between adjacent wires and from external sources, usually fabricated from a metallic braid or foil.

Signal - An electrical current used to transmit information.

Singlemode (fiber) - An optical waveguide that allows only one mode to propagate.

Skew - A measurement of the difference in the electrical length of two conductors or pairs of conductors.

Solid Conductor - A conductor consisting of a single wire.

STP - Shielded Twisted Pair. STP cabling features metal shielding over each individual pair of copper wires to protect the cable from external EMI.

Strain Relief - A method of protecting cables against stress at the point where the cabling meets the connector.

Stranded Conductor - A conductor composed of a group of wires twisted together.

SVGA - Super Video Graphics Array. A computer display standard that refers to a resolution of 800x600 pixels and higher.

S-video - A video signal in which the chrominance and luminance information are separated.

T

Termination - Ending a signal chain by putting a terminator on the unconnected end of a transmission line, or by putting a connector on a wire so that it can be connected to another.

TIA/EIA-568-B - A set of three building requirement standards for telecommunication cabling.

Tinned Wire - Copper wire that has been coated with a layer of tin or solder to facilitate soldering.

Transmission Loss - The loss in power during transmission of energy from one point to another.

Twisted pair - Two conductors twisted together to reduce crosstalk from neighboring wires and cancel out EMI from external sources.

U

UL - Underwriter's Laboratories. An organization that provides a listing service for electrical and electronic materials and equipment.

USB - Universal Serial Bus. A plug-and-play serial bus interface to connect peripherals to a computer. A single host controller can support up to 127 USB devices in a daisy-chained configuration. The USB interface can provide a data transmission rate of up to 12 Mbps.

USB 2.0 - Universal Serial Bus Version 2.0. USB 2.0 supports transfer speeds of up to 480 Mbps and is fully backward-compatible with older USB devices.

USOC - Universal Service Ordering Codes

UTP - Unshielded Twisted Pair. The most common cabling used in data networking.

V

VGA - Video Graphics Array. A computer display standard that refers to a resolution of 640x480 pixels.

VHDCI - Very High Density Cable Interconnect. A 0.8mm 68-pin connector for next-generation Ultra-SCSI applications.

W

WAN - Wide Area Network. A computer network that covers a broad geographical area, such as the Internet.

HOURS OF OPERATION: MON – FRI 8AM - 5PM ET

* A customer service representative will contact you to finalize charges. Charges may include shipping, processing, and sales tax.

Privacy Policy

Thank you for using our Amphenol Cables on Demand™ Web site. To help you understand how we use information that you provide to us, our Privacy Policy is described below. Please note that by visiting cablesondemand.com you are accepting the practices described in our Privacy Policy.

Who This Site Is For
This Web site is for our customers and is designed to help make doing business with us easy and convenient.

Security
When we transmit personal information and highly confidential information about you over the internet, we protect it through the use of Secure Socket Layer (SSL) encryption technology during the data transmission. You will know that SSL is being used when you see these security identifiers:
• An "s" displayed after "http" in the URL field.
• A padlock symbol displayed in the bottom status bar.
We protect your personal information from unauthorized access by limiting access to the computer our records are stored on to only those individuals who will process your order. Though we have taken steps to secure the data, we do not warrant that the information transmitted or received via our Web site is secure against unauthorized penetration or misuse.

Security Procedures for ACD Employees
We educate our employees about safeguarding customer information and preventing its unauthorized access, disclosure, and use.

Personal Information Collection
To place an order for ACD products, you will be asked to sign in with an e-mail address and a password. ACD collects information on the number of visits to our Web site, how much time users spend on it, the links that are clicked, the number of pages viewed, and the Web pages from which people visit. We may also collect demographic information, such as ZIP codes, preferences, and interests. This information is used to evaluate, operate, and improve our Web site, and we may use this information to inform you of other products, services, or special promotions offered by Amphenol Cables on Demand™. We may use this information in conjunction with information from other companies to tailor certain services to your geographic area and to enhance our customized customer relationship system. We may send survey invitations related to our services to ensure our commitment to the continuous improvement of our customer service. We will also use this information to communicate with you regarding other matters such as billing issues, information on technical matters and various other announcements.

Use of Cookies
Accepting a cookie from us enables you to use ACD's Online Services that require you to sign in. If you opt to refuse the cookie from our site by changing your browser preferences, some of these online services will not be available to you.

Note: A cookie is a small data file that is created by a Web server, stored on your computer, and used by a browser to store information. When you visit a site that uses cookies, the Web server will request permission to pass a cookie to your browser. Cookies do not harm your computer, collect information from your hard drive, execute as code, or deliver viruses. Although you may receive cookies from many different sites, each cookie set by ACD can only be read by ACD.
Cookies are used to store your preferences and other information on your computer to save you time and the need to enter the same information repeatedly.

Confidentiality
We do not share or sell customer information. ACD does not disclose any personal information that is provided by you through our Web site to any third parties unless authorized by you or a court of competent jurisdiction or other operation of law.

Disclaimer of Warranty
ACD is not responsible for technical, hardware, or software failure of any kind in relation to use of our Web site, including, but not limited to, use of forms or downloading of information. We shall not be liable in any manner whatsoever for direct, indirect, special, incidental, consequential, punitive, or other damages resulting from errors, omissions, dated information, availability of, use of, access of, or inability to use information. Information on this site is current only as of the date it is posted. We specifically disclaim any duty to update the information.

Disclaimer of Warranty Governance
Any action related to the Disclaimer of Warranty will be governed by New York law and controlling US Federal law. No choice of law rules of any jurisdiction will apply. All disputes in any manner related to the Disclaimer and/or use of this Web site shall be adjudicated in the State or Federal courts located in the City of Binghamton, New York. By using this Web site, you agree to submit to jurisdiction and venue in the State or Federal court in Binghamton, New York.

Copyright Notice
The contents of cablesondemand.com and associated locations, including text, images, logos, and icons, are copyrighted by Amphenol under terms of United States and international copyright laws. Unauthorized use is strictly prohibited. This site or any portions of it may not be duplicated, copied, sold, resold, or otherwise used for any commercial purpose without the prior written consent of Amphenol Cables on Demand™.

Modifications to Privacy Policy
Amphenol Cables on Demand™ will occasionally modify this Privacy Policy from time to time. We encourage you to review our Privacy Policy periodically.

Contacting Us
If you have questions about this Privacy Policy, please contact us at customerservice@amphenol-acd.com

The following terms of use apply only to the use of and purchases from the catalog or website www.cablesondemand.com of Amphenol Cables on Demand™ ("ACD"), a division of Amphenol Corporation. The term "buyer", refers to the user and/or customer utilizing our website or catalog in order to purchase services or merchandise ("Product").

Buyer will be deemed to have agreed to these Terms and Conditions upon the issuance of a purchase order number and upon acceptance from ACD of said purchase order.

All terms are binding unless otherwise agreed by an authorized agent at ACD's home office in Endicott, New York.
Terms and Conditions contained in Buyer's purchase order or any other document that are different from, or in addition to, these Terms and Conditions, are objected to and will not be binding on ACD.
ACD will proceed to sell items only if Buyer assents to these Terms and Conditions.
All agreements in place between Buyer and all other Amphenol divisions will not apply to Amphenol Cables on Demand™.

PRICING & SPECIFICATIONS: Despite our efforts to ensure that our published information is accurate, complete, and current, there may be instances when information about a Product may be inaccurate or incomplete, including data about the Product's price or availability. We make no warranty or guarantee that the information is error-free, complete, or current. We reserve the right to correct errors and/or update the content on our website / catalog at any time without notice. We also reserve the right to refuse or cancel any order containing any error or inaccuracy, including after the order has been submitted, whether or not the order has been confirmed. If your order is canceled after your payment has been processed, we will issue a full refund to the original pay type.

SHIPPING AND PROCESSING: All orders are shipped FOB our plant in Endicott, New York. The minimum shipping and processing charge for domestic ground shipments is $6.85. The minimum shipping and processing charge for Canadian ground shipments is $14.88. Orders shipped internationally are subject to a $12.00 processing fee. Unless ACD otherwise specifically agrees in writing, ACD reserves the right to over or under ship the quantities shown on the face of the order by 5% and adjust the price accordingly.

SALES TAXES: Sales tax will be added to all orders that are picked up or delivered within the State of New York, California, Connecticut, and Arizona. Other states may be charged sales tax at the time of order. The confirmation of your order total will reflect the applicable tax charge. The only exception to this term will be if buyer provides an "Exempt Use Certificate" when establishing their account.

PAYMENT: All product and services will be billed to buyer's credit card at the time of the order process.
In the event that credit is extended, the product will be invoiced at time of shipment according to the following schedule:

a) Unless otherwise specified herein, terms of payment are NET 10 days from the date of shipment of the products or performance of services. Where a discount is available, payment must be received within the specified timeframe to earn that discount.

b) In the event Buyer has overdue invoices, ACD reserves the right to cancel any order without obligation or to delay delivery of goods until such time as delinquent invoices are paid in full with appropriate late payment charges.

c) All sums owed hereunder shall be due and payable under the terms hereof. Buyer shall not offset said sums against other sums, whether liquidated or not, that are or may be due to Buyer, which arise out of a different transaction with ACD, its parent company, or its divisions, subsidiaries, or affiliates.

d) Nothing herein shall waive any other rights and remedies of ACD permitted by law or equity and all rights and remedies set forth herein shall be considered cumulative to all other available rights and remedies.

INSOLVENCY: ACD may cancel the whole or any part of an order in the event of: the suspension of Buyer's business, insolvency of Buyer, the institution by Buyer or others of bankruptcy, reorganization, arrangement of liquidation proceedings involving or affecting Buyer, or any assignment for the benefit of creditors of Buyer or receivership that Buyer places itself in or may be placed in. Such cancellation shall be deemed a cancellation for default of Buyer.

SHORTAGES: Claims for shortages must be reported within 3 business days of receiving the order, otherwise these orders will be deemed as complete.

WARRANTY:
a) ACD warrants that each new product sold hereunder will conform to ACD's specifications or drawings, or will conform to specifications agreed upon in writing by both parties. ACD's sole obligation and liability under this warranty is limited to the repair or replacement at its factory, at ACD's option, of any product which proves to be non-compliant with specifications within a year after the date of delivery to the first end user, which delivery must be made within six (6) months after delivery to Buyer, and such product is confirmed to be non-compliant by ACD's inspection.

Buyer shall inspect and accept any products delivered immediately after Buyer takes custody of such products. In the event the products do not meet the specifications or drawings, Buyer shall notify ACD in writing of such non-compliance and give ACD a reasonable opportunity to correct the non-compliance. ACD shall not be obligated or liable under this warranty for apparent defects or defects which examination discloses are due to tampering, misuse, neglect, improper storage or handling, normal wear, and all cases where the products are disassembled by other than authorized ACD representatives. In addition, ACD shall not be obligated or liable under this warranty unless written notice of non-compliance shall be given to ACD within thirty (30) days from the date such defects are first discovered.

Products for warranty consideration shall be returned to ACD with all transportation charges prepaid in shipping containers that are adequate to prevent loss or damage in shipment.

Products returned to ACD for repair under this warranty remain the property of Buyer and, unless agreed to by ACD, Buyer will not debit

ACD for the product value. No Products can be returned without a Return Material Authorization (RMA) number which must be obtained from ACD prior to shipping.

b) ACD DISCLAIMS ANY LIABILITY, WHETHER UNDER THIS WARRANTY OR OTHERWISE, FOR, AND BUYER SHALL DEFEND, INDEMNIFY AND HOLD HARMLESS ACD, ITS OFFICERS, AGENTS, AND EMPLOYEES AGAINST ALL EXPENSE, LOSS, ATTOR-NEYS' FEES, COST, DAMAGES, AND LIABILITY ARISING FROM ANY FAILURE OF ITS PRODUCTS WHICH IS CAUSED BY, IN WHOLE OR IN PART, THE USE IN OR WITH PRODUCTS OR COMPONENT PARTS NOT MANUFACTURED BY ACD, OR BY AN ALLEGED DEFECT RELATED TO DESIGN, LABELING, OR MANUFACTURING SPECIFICATIONS SUPPLIED BY BUYER.

c) THE TERMS OF THE APPLICABLE WARRANTY OR WARRANTIES, AS THE CASE MAY BE, AS SET FORTH ABOVE, ARE THE SOLE AND EXCLUSIVE WARRANTY TERMS THAT SHALL HAVE ANY FORCE AND EFFECT IN THIS TRANSACTION, AND SUCH TERMS ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRAN-TIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREWITH EXPRESSLY EXCLUDED.

d) ACD'S LIABILITY FOR ALL CLAIMS, WHETHER BASED ON BREACH OF CONTRACT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE, RELATING TO THE PRODUCTS SHALL NOT EXCEED THE PRICE PAID BY BUYER FOR SUCH DEFECTIVE PRODUCT. IN NO EVENT WILL ACD BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION, LOSS OF USE, LOSS OF PROFIT, AND CLAIMS OF THEIR PARTIES), HOWEVER CAUSED, WHETHER BY THE NEGLIGENCE OF ACD OR OTHERWISE.

e) BUYERS ARE SOLELY RESPONSIBLE FOR CONFIRMING THAT ALL PRODUCTS PURCHASED UNDER THIS AGREEMENT ARE INSTALLED AND USED IN ACCORDANCE WITH ALL APPLICABLE CODES AND REGULATIONS.

TOLERANCES AND VARIATIONS: All goods being sold to Buyer will be produced in accordance with ACD'S standard practices.

RETURNS: Customers wishing to return products must first obtain a Return Material Authorization (RMA) number from an ACD Call Center Representative. This number must be printed on the outside of the package in order for it to be received and processed. Merchandise must be shipped prepaid. ACD will determine if credit will be issued upon evaluation of the product and packaging after it is returned to ACD. Other details concerning returns are as follows:

STOCK ITEM RETURNS: Items ordered in error must have a Return Material Authorization (RMA) number issued within 30 days of the original order. These parts are eligible for full credit only if the returned products and packaging are clean, unused, and in a fully resalable condition.
 A repackaging charge of 10% of the sale price may be charged on any products not returned unopened. Under no circumstances will credit be issued after 30 days from date of invoice. All freight charges are the responsibility of the customer.

DEFECTIVE ITEM RETURNS: All defective items must have a Return Material Authorization (RMA) number.

CUSTOM PRODUCT AND TOOL RETURNS: RMAs will only be issued for Custom Products and tools that are found to be defective.

NOTICES: Any notice to ACD required or permitted hereunder will be deemed to have been effectively delivered if in writing and served by personal delivery to ACD or sent by registered or certified mail with return receipt requested, postage prepaid, to ACD 20 Valley Street Endicott, New York 13760.

CONFIDENTIALITY: Buyer agrees that all information furnished by or obtained from ACD in connection with the sale of items hereunder will be confidential, and Buyer agrees not to (i) disclose any such information to any other person, or (ii) use such information for any purpose other than performing this contract.

TRADEMARKS: All trademarks referenced in this catalog are the service mark, trademark, or trademark of the respective manufacturer.

CALL MONITORING: To ensure quality of service, ACD may monitor incoming and outgoing telephone calls with customers.

PATENT, TRADEMARK, AND COPYRIGHT INDEMNITY: ACD shall indemnify Buyer, Buyer's customer, and any end user from any and all damages and costs finally awarded for infringement of any existing patent, trademark, or copyright in any suit by reason of the sale of any products sold to Buyer hereunder where ACD is an infringer with respect to its sale hereunder, provided that ACD is promptly notified in writing of any such suit and Buyer offers ACD full and exclusive control of the defense of such suit when products of ACD only are involved therein and the right to participate in the defense of such suit when products other than those of ACD are also involved, and Buyer fully cooperates with ACD in such defense. This indemnity shall not, however, extend to infringement or claims thereof resulting from ACD's compliance with Buyer's designs, processes, formulas, or approvals, use of the products in a manner to have them become infringing or use of the products alone or in combination with other equipment where the use is the subject of the claim. ACD's liability for damages hereunder is limited to those computed solely on the value of any product sold to Buyer hereunder. In no event shall ACD be liable for special, incidental, or consequential damages or costs applicable thereto. The above indemnity is in lieu of any other indemnity or warranty, express or implied, with respect to patents, trademarks, or copyrights and shall in no event exceed the price paid by Buyer for such products.

GOVERNING LAWS: The laws of the State of New York shall in all respects govern Buyer's purchase of products. All disputes will be heard in Binghamton, NY.

SEVERABILITY: If any provision of this document is in violation of any governmental statute or regulations, or is illegal for any reason, said provision shall be self-deleting without affecting the validity of the remaining provisions.
