

Datasheet for part number DAMM-3W3P-F225

|                                         |                                                                 |
|-----------------------------------------|-----------------------------------------------------------------|
| Our Catalog Part Number: DAMM-3W3P-F225 |                                                                 |
| Brand: Cannon                           | Product Category: D Sub   Product Line: D Sub   Series: COMBO D |

| Product Datasheet               |                                                           |
|---------------------------------|-----------------------------------------------------------|
| General                         | Combo D Series: D-Subminiature offering mixed layouts     |
| Wire Gauge Range AWG            | AWG 8-26                                                  |
| Contact Arrangement             | 3W3 (3 empty size 8 cavities)                             |
| Dielectric Withstanding Voltage | 500 VAC at sea level                                      |
| Current Rating Signal Contacts  | 7.5 max                                                   |
| Operating Temperature           | -55°/+150°                                                |
| Salt Spray Test                 | 48 hours {96 Hrs for Stainless Steel}                     |
| Shell Material                  | Passivated stainless steel                                |
| Shell Finish                    | Stainless steel shell                                     |
| Insulator Material              | Thermoplastic, type PCT UL 94V-0                          |
| Insulator Color                 | black                                                     |
| Gender                          | Pin                                                       |
| Contacts                        | delivery without size 8 contacts, please order separately |
| Mounting Method                 | .120" (3,05mm) Through Hole                               |
