Description

This one meter long EL Tape has the same connector as our other EL products, it can be driven by either our [EL 2xAA Pocket Inverter](#) or our [EL USB Inverter](#) and controlled by [EL Shield](#). It's a great material for art projects because of its gentle glow, and it's perfect for situations that require heat sensitivity because EL products don't release any heat when operating.

Features

- No heat loss
- Bendable, and able to tie into any shape
- Can be cut to any length
- High efficiency (97%)
- Does not emit UV light
- Soft light that is not harsh on the eyes
- Waterproof, except the connector
- The higher voltage EL USB inverter is recommended because it produces a stronger light

Specifications

- Length : 1 m
- Width: 15 mm (including the plastic sheath)
