Part Number : TSAL0001 - Saleae Logic USB Logic Analyzer

The Saleae Logic is an 8-channel USB Logic Analyzer that records and displays digital waveforms and decodes common protocols, like Async Serial, SPI, I2C, and UNI/O(R). It can record up to 200M samples at up to 24MHz, providing extensive debugging insight into a board level design. Logic works with 3.3V and 5V logic levels and comes complete with carrying case, E-Z-Hook probes, wire harness, and USB cable. Software - which operates in a fully-featured demo mode when no Logic is attached - can be downloaded free of charge at <http://www.saleae.com/downloads>
