Key Features

- The low voltage type (6–24V type) of illumination units will be gradually replaced with new catalog model products from January 2026.
- The products listed on this product list page will be changed to made-to-order products from January 2026 and discontinued at the end of June 2026.
- Products with DC-DC converters will be discontinued at the end of December 2025.
- Significantly reduces wiring work for round crimp terminals. (Excluding direct type pilot lights)
- UL, CSA, TÜV, CCC certified products.
