NetworkAIR CW Features & Benefits

Protection

Air filtration

Removes dirt and other particulates from the intake air for cleaner supply air.

Manageability

Microprocessor controller

Provides proactive control and real-time monitoring via a four line, eighty character, alphanumeric display.

Serviceability

Front service access

The system has full service, front access for routine servicing of components. Front access also narrows the footprint of the system making it possible for units to be placed side by side.

Availability

Steam humidification

maintenance.
