AR3307X612 Features

NetShelter SX 54U 600mm Wide x 1200mm Deep Enclosure with Roof and Sides, Black

Adjustable leveling feet	Leveling feet can be quickly adjusted through the use of a screwdriver or drill, eliminating the need to reach underneath with a wrench.
Adjustable mounting rails	The vertical mounting rails can be adjusted in 1/4 in (6.4 mm) increments covering virtually any mounting requirement for IT equipment. U positions are numbered front and back for rapid installation of equipment.
Facilitates overhead cable management	Overhead cable troughs and partitions install toollessly on the roof of the enclosure eliminating the need for ceiling mounted or underfloor mounted cable trays. Cable troughs and partitions are designed to manage both power and data cables while maintaining separation.
Guaranteed Compatability	Vendor-neutral mounting for guaranteed compatibility with all EIA-310 compliant 19" equipment. The APC "Fits Like a Glove" money back guarantee provides peace of mind that all of your EIA-310-E compliant rack-mount equipment will physically fit in a NetShelter IT enclosure.
