

SmartRack Side Panel with Key-Locking Latches for 42U Server Rack Cabinet, 1 Panel

MODEL NUMBER: SR42SIDE

Locking steel panels attach to the sides of your SR42UB-based server rack enclosure.

Features

Single Steel Side Panel for Installation on Your 42U Rack Cabinet

The SmartRack® SR42SIDE side panel features pre-installed key-locking latches for securing your rack equipment against tampering and theft. Designed for standard-depth SR42UB rack frame, this panel can also be added to the side of an expansion cabinet (SR42UBEXP) when application needs have changed or onto a wide cabinet (SR42UBWD) as the depth remains the same. They can also be used as replacements for existing side panels.

Convert an Expansion Cabinet into a Cabinet with Side Panels

When needs change and you want to separate your expansion rack cabinets (such as SR42UBEXP), add four** SR42SIDE heavy-duty steel panels to the sides of them to convert the racks into standard cabinets. **Note**: This package includes only one (1) singular panel. You will need to purchase four SR42SIDE panels to completely populate an expandable rack.

Specifications
