Product Overview	Technical Specifications	Ratings & Reviews
MGE Galaxy PW Features & Benefits		
Manageability		
LED status indicators	Quickly understand unit and power status with visual indicators.	
Network management capability	Full-featured network management interfaces that provide standards-based management via Web, SNMP, and Telnet.	
LCD graphics display	Text and mimic diagrams that display modes of operation, system parameters and alarms.	
Serviceability		
7x24 telephone technical support	Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you need is there when you need it.	
Multiple levels of service	With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you.	
Front-access servicing	Simplifies installation and UPS maintenance while minimizing space requirements.	
Availability		
Dual mains input	Increases availability by allowing the UPS to be connected to two separate power sources.	
Parallel-redundant capable	Power the connected equipment with multiple uninterruptible power supplies to increase system redundancy	
Generator compatible	Ensures clean, uninterrupted power to protected equipment when generator power is used.	
Temperature-compensated battery charging	Prolongs battery life by regulating the charge voltage according to battery temperature.	
Frequency and voltage regulation	Gives higher application availability by correcting poor frequency and voltage conditions without using the battery.	
Parallel-capacity capable	Increases total power capacity by using multiple uninterruptible power supplies simultaneously.
