

DEUTSCH ABC SERIES MODULAR AND IN-LINE COMPOSITE CONNECTORS

FLEXIBLE CONFIGURATIONS IN A COMPOSITE CONNECTOR
OFFERING WEIGHT SAVINGS AND ENVIRONMENTAL SEALING

ABC MODULAR AND IN-LINE COMPOSITE CONNECTORS

WEIGHT AND SPACE SAVING

- Lightweight composite shell
- Stackable
- Integrated backshell

MODULAR

- 2 shell sizes
- 3 module sizes
- 4 contact sizes
- Over 4000 possible combinations

CONVENIENT

- 28 to 12 AWG wire range
- Rear-release AS29029 contacts
- Field serviceable

RUGGED

- Environmentally sealed
- Corrosion resistant
- Fluid resistant
- EMI shielded
- Secure quarter-turn locking system

APPLICATIONS

- Airframe
- Navigation
- Rack and Panel
- Missile Defense
- Commercial Aerospace

The Flexible Solution That Saves Weight

ABC modular composite connectors combine a weight-saving composite shell with mix-and-match modularity to create an interconnection system with unmatched configuration flexibility.

ABC modular connectors offer two shell sizes, three insert module sizes, four contact sizes, and twenty six keying options—yielding you over 4000 possible configurations.

ABC in-line connectors are compact, single-module shells that accept any of six half-inch modules. Receptacle shells are a nonreversible stacking design and are panel mountable to a clip.

ABC In-Line Connectors

One shell size
Accepts 0.5" modules
Unplated composite shell

ABC Modular Connectors

Two shell sizes: 1" and 2"
Three module sizes: 0.5", 1", 2"
Nickel-plated composite shell

Space-Saving Stackability

Not only does the composite shell save weight over metal alternatives, the connectors conveniently stack to provide maximum space efficiency.

Rugged

The connectors are environmentally sealed and withstand exposure to most fluids found in aerospace applications. Versions with resistance to hydraulic oil or jet fuel are optionally available. Shells are nickel plated to provide excellent corrosion resistance.

MATERIALS

- **Shell:**
 - Modular Connectors:** Nickel-plated composite
 - In-Line Connectors:** Chemical-resistant PEI composite
- **Seals:** Fluorosilicone blend
- **Inserts:** Glass-filled thermoplastic
- **Mounting Hardware:** Stainless steel
- **Braid Support:** Passivated stainless steel

ENVIRONMENTAL/MECHANICAL

- **Fluid Resistance:** Suited to most aerospace application
Optional hydraulic oil and jet fuel resistance available
- **Altitude Immersion:** 1500 V DWV @ 75,000 ft. (except size 80 modules)
- **Temperature Range:** -65°C to +175°C
- **Humidity:** up to 98%, condensing
- **Durability:** 1500 mating cycles
- **Shock:** 100 g (half-sine @ 3 ms)
- **Vibration:** 4 g_{rms}
- **Corrosion Resistance:** >1000 hours (salt spray)
- **Shielding:** >40 dB from 100 to 1000 MHz
- **Flammability and Toxicity:** Meets aerospace requirements

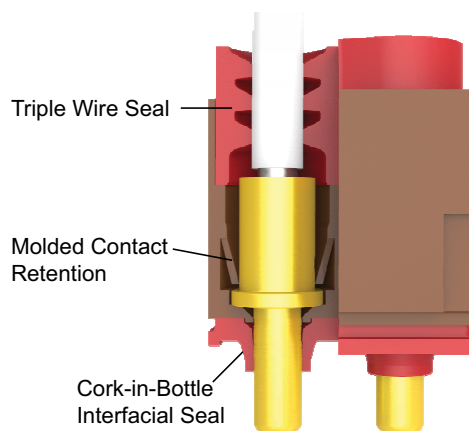

SPECIFICATIONS

- **Product Specification:** 108-32084
