NetworkAIR CM Features & Benefits

Manageability	
Microprocessor controller	Provides proactive control and real-time monitoring via a four line, eighty character, alphanumeric display.
Protection	
Air filtration	Removes dirt and other particulates from the intake air for cleaner supply air.
Availability	
Steam humidifier	Humidity is managed through a self-contained steam canister humidifier for maximum efficiency and ease of maintenance. The pure-steam canister maintains consistent capacity output, and requires very little scheduled maintenance.
