Configurable Power Accessories Features & Benefits

Agility

|                                            |                                                                                                                                                                                                                                                                                                |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Wide Range of Applications                 | Configure-to-order process allows APC to configure, install, and test complete system before shipping                                                                                                                                                                                          |
| Wide range of input and output connections | Product family includes a variety of input and output connections to distribute 120V, 208V, or 230V power to multiple outlets. Having a variety of inputs and outputs allow users to adapt to varying power requirements. APC offers units that bring up to 14.4kW using a single branch whip. |

Marketing Features

|                                            |                                                                                                                                                                                                                                                                                                |
